

BioStar 2

Web-based Open Integrated
Security Platform

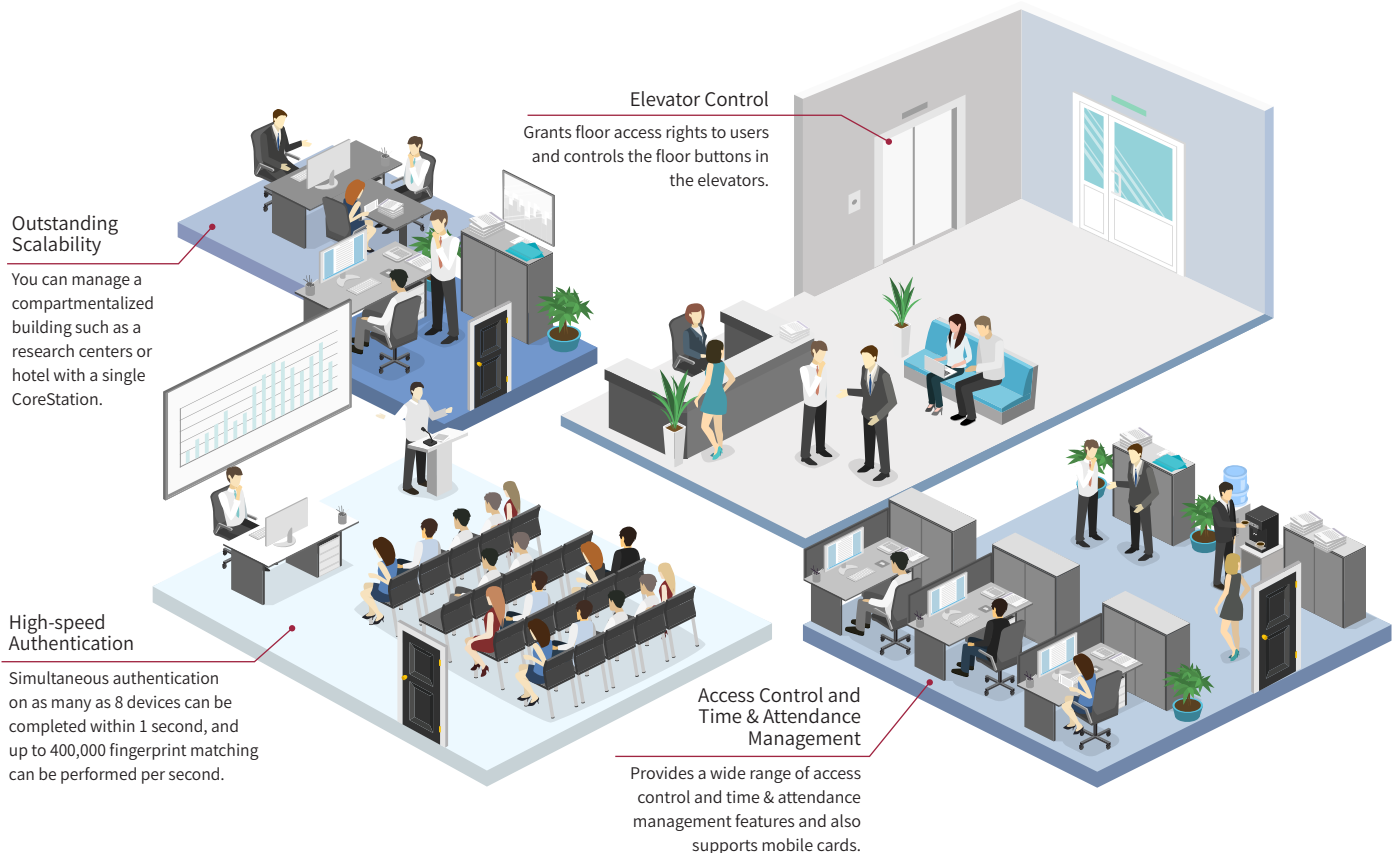

Centralized System | Access Control and Time & Attendance Management

With Suprema's CoreStation and readers, you can build a centralized system, which is a system based on access control units (ACU). Suprema's centralized system not only provides the benefits of biometrics, but it also provides enhanced security and excellent system scalability. In addition, the centralized system also enables you to upgrade your existing systems at lower installation cost. Integrated with BioStar 2, this system safely stores all information about each user including the user's name, ID, PIN, access rights and fingerprint data by storing it on a single device. Suprema's intelligent biometric controller, CoreStation, is capable of performing fingerprint matching as well as RFID cards. It provides differentiated performance and features based on a 4-channel module that boasts superior hardware performance and scalability.

Strength in numbers

- Performs 400,000 times of fingerprint matching within 1 second
- Stores information about up to 500,000 users and RFID cards
- Stores up to 5,000,000 text logs
- Controls up to 132 Wiegand devices (DM-20 connection required)
- Controls up to 64 RS-485 devices
- Processes fingerprint authentication on up to 8 devices simultaneously within 1 second

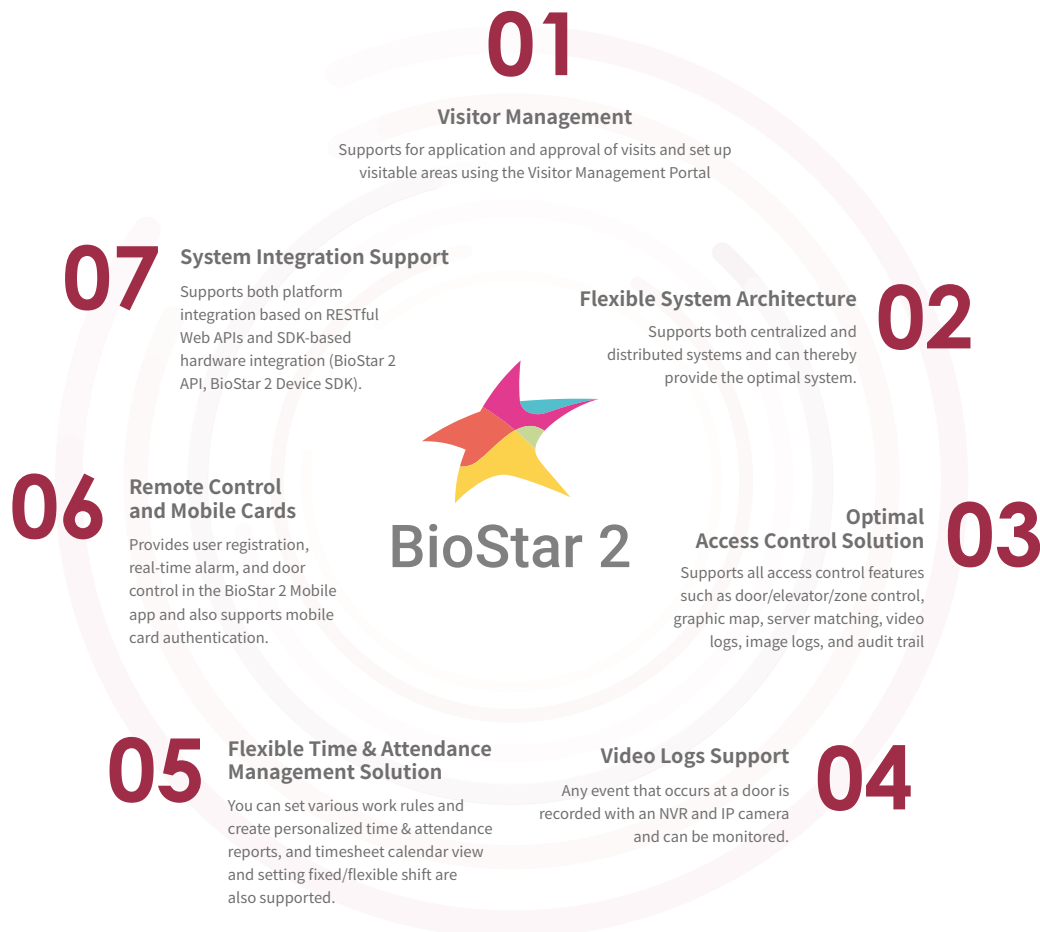

CoreStation Specs.	
CPU	1.4 GHz Octa Core
Memory	8 GB Flash + 1 GB RAM
Maximum No. of Users	500,000 (1:1) and 100,000 (1:N)
Maximum No. of Templates	1,000,000 (1:1) and 200,000 (1: N) *
Maximum No. of Text Logs	5,000,000 (text)
Serial Communication Protocol	OSDP V2
Ethernet	10/100 Mbps and Auto MDI/MDI-X
RS-485	5ch
Wiegand	4ch Input
Relay	4 Relays
TTL Input	8ch (Supervised input selectable)
TTL Output	8ch
AUX Input	2ch (AC power fail and tamper)

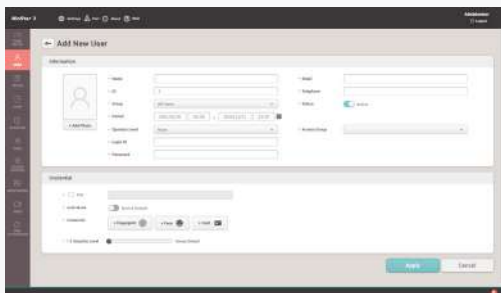

Supported Products					Accessory
					
Intelligent Biometric Controller CoreStation	Compact Fingerprint Reader BioEntry R2	Outdoor Compact RFID Reader XPass D2	Secure Multi-output Module OM-120	Secure Multi-door I/O Module DM-20	Dedicated Cabinet ENCR-10

BioStar 2 Platform

BioStar 2 is a web-based, open, and integrated security platform that provides comprehensive functionality for access control and time & attendance. Featuring a modular, flexible framework, the platform supports both the BioStar 2 Device SDK which is used to integrate Suprema's terminals with third-party systems and web APIs which are used to integrate the functionality of the BioStar 2 platform with third-party systems. In addition, in step with the mobile era, the mobile app for BioStar 2 has been designed to enable you not only to remotely control the BioStar 2 platform but also to get a mobile card issued to you for use.

Subdivided user information registration

Visitor Management Portal

Enhanced monitoring capabilities

Multi-functional time & attendance management reports

Distributed System | Access Control and Time & Attendance Management

In distributed systems, IP terminal and readers perform the roles of a controller and reader simultaneously.

Therefore, you can undertake functions such as user management, access control management, and biometrics with a single terminal. Suprema's IP terminals and readers improve system reliability with easy system configuration and distributed management. It also provides the benefits of simple wiring and low installation/maintenance costs.

Elevator Control

Grants floor access rights to users and controls the floor buttons in the elevators.

Easy System Connectivity & Easy Maintenance

Distributed systems provide easy system connectivity and easy maintenance.

Access Control and Time & Attendance Management

Provides a wide range of access control and time & attendance management features and also supports mobile cards.

Outstanding Performance & Contactless Authentication

Provides superior performance based on the world's best biometric algorithms and hardware as well as the benefits of contactless authentication via FaceStation 2.

Supported Products

IP Face Recognition Terminal
FaceStation 2

Compact IP Face Recognition Terminal
FaceLite

IP Fingerprint Terminal
BioStation A2

Outdoor IP Fingerprint Terminal
BioStation 2

IP Fingerprint Terminal
BioStation L2

Outdoor IP Fingerprint Terminal
BioLite N2

Outdoor IP Fingerprint Device
BioEntry W2

Compact IP Fingerprint Device
BioEntry P2

Outdoor Compact RFID Device
XPass 2

IP RFID Terminal
Xpass

IP RFID Terminal
Xpass S2

Secure Door Control Module
Secure I/O 2

Secure Multi-output Module
OM-120

BioStar 2 Mobile

BioStar 2 Mobile enables you to freely control BioStar 2 anywhere, anytime on your smart device. Developed based on BioStar 2's web APIs, BioStar 2 Mobile provides services appropriate for the mobile era, including user information registration, BioMini-based fingerprint registration, door control, real-time door and zone status notification, and access control event monitoring. In addition, mobile cards which you can issue via BioStar 2 are an authentication means capable of completely replacing existing plastic cards, and they help you build the most convenient and innovative mobile access control solutions.

BioStar 2 Mobile Card

- Bluetooth**
BLE Bluetooth Low Energy
Communicates with Android devices via BLE
Protects data communication with the encrypted AES 128-bit algorithm
- NFC**
NFC Near Field Communication
Communicates with Android devices via NFC's HCE
Protects data communication with the encrypted AES 128-bit algorithm

* HCE is not available from all Android mobiles, please check the specification.

- Bluetooth**
BLE Bluetooth Low Energy
Communicates with iOS devices via BLE
Protects data communication with the encrypted AES 128-bit algorithm
