

# LABEL REWINDERS

- 300mm / sec speed
- Lever stop control
- Direction of rotation selector
- Adjustable shaft from 40 to 118 mm.

## Industrial environment

With an all-metal structure, these industrial rewinders have been designed to work with most label printers on the market. Easy utilization and high reliability, they incorporate a platform to place the printer and ensure paper alignment and equipment stability.

## Versatile

The speed can be regulated electronically, to easily adapt to different printers. The label pick-up spindle is also adjustable from 42 to 118 mm, so that it comfortably adapts to different chuck diameters.

## Excellent Performance

As advanced features, they have a stop and go lever that also automatically regulates engine speed, direction of rotation selector and warning acoustic coil termination.

## Technical specifications

Model	RP-100	RP-150	RP-200
Paper width	Up to 127 mm	Up to 174 mm	Up to 244 mm
Coil diameter	Up to 250 mm		
Chuck	Adjustable from 40 to 118 mm		
Turning speed	225 r.p.m.		
Turning sense	Selectable		
Feeding	220V / 18V adapter		
Dimensions mm	Width: 330 High: 340 Depth: 415	Width: 380 High: 340 Depth: 415	Width: 455 High: 340 Depth: 415
Weight	6,2 Kg.	6,7 Kg	7,2Kg
