Rewinder & Unwinder MCH-27

- 300mm / sec speed
- Label width up to 240 mm.
- Direction of rotation selector
- Roll diameter up to 250 mm.
- 76 mm axle.

Industrial environment

With an all-metal structure, this industrial rewinder is robust, easy touse and has been designed to work with any thermal label printer.

Versatile

Unlike other rewinders, the MCH-27's motor is located insideof the 76 mm. This innovative system allows the use of large rolls andmakes it easy to replace.

Rewinder or Unwinder Function

The MCH-27 has a double function: rewinder or unwinder. It is also possibleselect the direction of rotation so that labels with winding can be rewoundinternal or external.
